P-650 Diagnostic Specimen Packaging Kit

Speci-Box I is an ADR p650-compliant Diagnostic Specimen packaging kit that allows for the safe and compliant transport of biological specimens.

Speci-Box I is a safe and economical way to package specimens during transport.

Speci-box I packaging kits consist of a strong, self-assembly outer cardboard box, pre-labelled with the appropriate text from ADR ; a 95kPa resistant, leakproof transport bag and a super-absorbent pad.

All of the various components used in the Speci-Box range are manufactured in EU.

All products are provided flat –packed for ease of storage.
